## Infinity Instruments Ltd

would like to help you understand our catalog with key information about the symbols that will appear next to our products and descriptions. For more information please contact us and we will help you with your needs.

### **Automatic Daylight Savings Adjustment**

Clocks with DST (Daylight Saving Time) Automatic Daylight Saving Adjustment function. Once the clocks are set to the correct time, they will be advanced by one hour during the beginning of DST automatically.

When DST ends, the clocks will go back one hour.

### **OVERSIZED**

Clocks 24" and above are subject to oversized shipping charges.

### **RADIO CONTROL**

Clocks with radio control movements receive its signal from the world's most accurate clock, the U.S. Government's atomic clock in Colorado. The time is broadcasted 24-hours a day via a low frequency radio signal. Once you have your clock set to the right time zone you are done; the clock will do the rest.

### **TEMPERED GLASS**

Made with a tempered glass material.

### **SILENT MOVEMENT**

Built with a silent movement and a sweep second hand.

### **OUTDOOR/INDOOR**

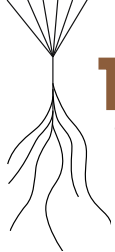

Specially designed and sealed for outdoor use.

### **NEW PRODUCT**

2021 New Infinity Instruments product.

Sunburst Wall Clock with a  
Light / Dark Brown Finish

Add a touch of trendy sophistication to your ensemble with our luxurious Celeste wall clock. Featuring a striking starburst silhouette and four different color options for easy-to-assemble spokes, the Celeste is sure to complement any midcentury design. Black metal minute and hour hands sweep across an off-white dial face while the black bold numerals make this clock easy to tell time.

The midcentury styled clock invokes an undiluted splash of energy and emotions to ensure it makes a clear and great impact wherever you choose to hang it. Creatively designed, this classic time piece is just waiting to add flavor to any home or office space.

Bursting with 12 artful rays radiating from the center core, this modern clock is made with sturdy and durable plastics to ensure long-lasting use. The simple, yet elegant design of this clock is powered by a high quality Quartz movement that requires only one AA battery (not included) to operate wirelessly. The 24.5-inch sunburst wall clock requires a quick assemble (under 5 minutes) on arrival after which it will be ready to be hung for your enjoyment.

Calling all history buffs and romantics! The Nova wall clock gets its inspiration from the clean, natural wood tones and gold metallic from the turn of the century. Oversized at almost 31 inches in diameter, this is a great pick for hanging in your den, living room, or bedroom. At the center of the sunburst, there is a circular metallic gold frame displaying numbers against a silver face. The clock face is majestically surrounded by aged solid wooden rays. Pair it with geometric accent pieces and you will have a space that gives the impression of being created by a professional interior designer! The time is notified by sleek black metal hands, a perfect touch of contrast. This wall clock has an open face and no lens concept, thus retaining its midcentury modern theme in the true spirit.

The Bookend from Infinity Instruments is a two-sided clock/thermometer with a twist. With the Bookend, both the thermometer and clock are placed side-by-side for easy viewing. Both instruments are surrounded by an eye-catching wrought-iron style metal frame for added style and durability. Both the clock and thermometer features black metal hands and easy-to-read Arabic numerals set against a faded clock face for vintage appeal. Additionally, the clock features sweep movement and the thermometer is adjustable and accurately measures ambient temperature. The Bookend is the ideal accessory for your patio, shed or garden.

Give your home or office décor a bohemian flair by incorporating our 16" mirror into your wall collage or hanging it solo. Molded out of top grade resin and then carefully augmented with small cutout details that produce a beaded lattice appearance, this medium wall mirror is a real stunner. Highlighted by a golden copper finish which exudes a certain luxuriousness that has withstood the test of time, the round mirror is also quite easy to decorate with. The mirrored glass inset has a 9.75" diameter, which means our decorative mirror is the perfect size for displaying in any indoor room.
